

1). In the past five years have you had to work a second job while working at the University? If yes, why?

Yes. Unable to live independently on single primary income.

2). While working here have you needed to borrow money or use a credit card to make ends meet?

No, but that is why I work a second job, so I won't need to borrow money, or use a credit card to make ends meet.

3). If you made a livable wage, what would you be able to do that you can't do now? (In 2003 the Jobs Now Coalition estimated that the hourly wage needed to meet monthly basic needs for a family consisting of one adult with 2 children was \$19.46)

1-I would buy a house- I can't afford to buy one on just my income

2- Save for retirement. The amount I save now is minimal, and I fear I will not have enough to live on later

4). At your present salary, what do you go without?

I live a very simple life-no store-bought furniture, no computer, no new clothes, no traveling. I would like to take better care of my car, but cannot afford extensive maintenance.
