

1). In the past five years have you had to work a second job while working at the University? If yes, why?

no, unless you count the child support from my ex-husband. I'd be in bad shape without that.

2). While working here have you needed to borrow money or use a credit card to make ends meet?

Yes, I really dislike using credit for groceries , but it has happened fairly often.

3). If you made a livable wage, what would you be able to do that you can't do now? (In 2003 the Jobs Now Coalition estimated that the hourly wage needed to meet monthly basic needs for a family consisting of one adult with 2 children was \$19.46)

replace worn and stained clothing, go out to eat somewhere other than a drive through, subscribe to Netflix, save money for my kids' college education, take my cats to the vet when they need to go

4). At your present salary, what do you go without?

new clothes, movies, I try to make healthy food choices but end up compromising that sometimes, and I have never been on a real vacation to a hotel or resort , I always visit family because it's free
