

1). In the past five years have you had to work a second job while working at the University? If yes, why?

***My part time jobs are the money used for summer outings, and birthday gifts. Comp time is also used for extra jobs to help pay monthly expenses.***

2). While working here have you needed to borrow money or use a credit card to make ends meet?

***I refuse to borrow money to supplement my job. But that does not always make for a happy household.***

3). If you made a livable wage, what would you be able to do that you can't do now? (In 2003 the Jobs Now Coalition estimated that the hourly wage needed to meet monthly basic needs for a family consisting of one adult with 2 children was \$19.46)

***Buy a decent car and take my wife on a vacation.***

4). At your present salary, what do you go without?

***Nothing because I work up to 20 hours per week away from the job to make ends meet. That will have to be increased if we lose as much the next 2 years as we lost the last 2 years.***
