

1). In the past five years have you had to work a second job while working at the University? If yes, why?

Yes, Because I didn't make enough money to pay my bills.

2). While working here have you needed to borrow money or use a credit card to make ends meet?

Yes, I needed the second job to pay off a few credit card bills that had been adding up over time.

3). If you made a livable wage, what would you be able to do that you can't do now? (In 2003 the Jobs Now Coalition estimated that the hourly wage needed to meet monthly basic needs for a family consisting of one adult with 2 children was \$19.46)

Buy a bigger a house for my family. I would probably buy more things that I wanted rather than things that I just need. Right now, its tough to buy anything that I want. Needs are more important.

4). At your present salary, what do you go without?

"wants". Things that I don't need(example: new clothes, new car, new and bigger house, improvement/renovations to the current house, etc.)
