

1). In the past five years have you had to work a second job while working at the University? If yes, why?

***No. My husband works too, and we live frugally.***

2). While working here have you needed to borrow money or use a credit card to make ends meet?

***No. We don't live beyond our means***

3). If you made a livable wage, what would you be able to do that you can't do now?

***My husband would get a job that actually applies to his degree, since he wouldn't have to make as much with my salary being higher. The non-profit sector don't pay as well, and he's stuck driving a bus so we can afford our house and bills. I would go to Grad school and get my Masters of Library Science.***

4). At your present salary, what do you go without?

***Grad school, and my husband, a job he's proud of.***
