

1). In the past five years have you had to work a second job while working at the University? If yes, why?

Yes, to make ends meet, since I'm single.

2). While working here have you needed to borrow money or use a credit card to make ends meet?

Yes, misc. items that arise during the year.

3). If you made a livable wage, what would you be able to do that you can't do now? (In 2003 the Jobs Now Coalition estimated that the hourly wage needed to meet monthly basic needs for a family consisting of one adult with 2 children was \$19.46)

I feel my wage is good, but I still need that 2nd job to make ends meet.

4). At your present salary, what do you go without?

Being able to pay a larger bill all at once, and having anything left at the end of the pay period. I'm not an over-spender, but those unexpected expenses just aren't met after the basic monthly bills.
